3. PRODUCT DESCRIPTION

A versatile accessory designed to enhance the stability and performance of your pedestal installations. Made from durable, high-quality rubber, this shim provides an additional layer of cushioning and noise reduction, ensuring a quieter and more secure fit. It is ideal for compensating for minor surface irregularities, offering precise leveling for a flawless finish. Easy to install and compatible with the entire NXT Pedestal system, the rubber shim is the perfect solution for achieving optimal alignment and long-lasting durability in any project.

Uses

Rubber Shims are for minor leveling or compensating of uneven paver or decking materials.

Pedestal paver systems are highly versatile and can be installed over various substrates, provided they are structurally sound and capable of supporting the system's load.

Applications include:

- Paved areas or raised timber
- Pavers (Porcelain, stone, concrete, etc)
- Timber decking

Suitable Substrates

- Concrete and Masonry Surfaces
- Exterior Glue Plywood decks that have been waterproofed with a primary roof waterproofing membrane
- Metal/Steel

Packaging

600 PCS per carton (6 bundles of 100 pcs) in each carton

4. TECHNICAL DATA

Working Properties

Pedestal paver systems are highly versatile and can be installed over various substrates, provided they are structurally sound and capable of supporting the system's load.

Specifications subject to change without notification. Results shown are typical but reflect test procedures used. Actual field performance will depend on installation methods and site conditions.

5. INSTALLATION

For minor leveling or compensating for uncalibrated material. Use the NXT Pedestal 3/64" rubber shim. After the spacer tab has been inserted, place the rubber shim directly on the pedestal head. NXT Pedestal Rubber Shims are designed to be used in quarters. Tear off or double up corners as required until the tile is level.

6. AVAILABILITY AND COST

Availability

LATICRETE materials are available worldwide.
