## 3. PRODUCT DESCRIPTION

Designed to safeguard surfaces and enhance the stability of pedestal installations. This durable PE foam pad provides a protective barrier, preventing damage to waterproof membranes or delicate substrates while reducing noise and vibration. Its lightweight yet resilient construction ensures long-lasting performance, even in demanding environments. Easy to position and compatible with the entire NXT Pedestal system, the Base Pad is the perfect accessory for ensuring a secure and surface-friendly installation in both residential and commercial projects.

### Uses

Designed to safeguard surfaces and enhance the stability of pedestal installations.

### Advantages

Durable PE foam

Prevents damage to delicate substrates and membranes

Compatible with both the Mini and Max pedestals

### Suitable Substrates

- Concrete (Concrete is only suitable substrate when using DL as a wear surface)
- Exterior Glue Plywood decks that have been waterproofed with a primary roof waterproofing membrane
- Metal/Steel

### Packaging

72 PCS per carton

### Approximate Coverage

Coverage will vary based on surface finish type and dimensions.

### Limitations

DO NOT

- Install any NXT Pedestals upside down for any reason.
- Cut the pedestal for any application.
- Use 4" extenders without a pedestal body and base.

## 4. TECHNICAL DATA

### Physical Properties

Made from high grade PE Foam.

Specifications subject to change without notification. Results shown are typical but reflect test procedures used. Actual field performance will depend on installation methods and site conditions.

## 5. INSTALLATION

### Installation Instructions

STEP 1:

Ensure the substrate is clean, smooth and free of building debris. NXT Pedestals are not suitable for soft surfaces ie. grass, loose gravel, crushed rock, etc. If the substrate is membraned - we recommend using the NXT Pedestal – Base Pad.

STEP 2:

Measure the area into equal parts based on tile size.

Using a chalk line aids in set out and finding the best pedestal placement.

\*Note\* The NXT Pedestal system has 5/32" spacer joints.

**STEP 3:**

It is recommended to start in the corner and ensure the pedestal and tile is placed against a solid perimeter.

**STEP 4:**

Lay suitable tiles/pavers/stone on top of the pedestals ensuring the material is level.

## 6. AVAILABILITY AND COST

### Availability

LATICRETE materials are available worldwide.

### For Distributor Information, Call:

Toll Free: 1.800.243.4788

Telephone: +1.203.393.0010

For on-line distributor information, visit LATICRETE at [laticrete.com](http://laticrete.com)

### Cost

Contact a LATICRETE Distributor in your area.

## 7. WARRANTY

See 10. FILING SYSTEM:

- 5 Year Product Warranty - Pedestals
