3. PRODUCT DESCRIPTION

Uses

The HYDRO BAN[®] Corner Tool is designed to assist in the application of liquid waterproofing membranes and the embedment of waterproofing fabric at critical transitions and wet areas. The tool helps installers achieve consistent coverage, proper membrane thickness, and uniform reinforcement placement in accordance with LATICRETE product Data Sheets.

Advantages

- Beveled edge smooths corners, flattens material, and removes excess
- Integrated scooping channel delivers liquid waterproofing into corners and tight transitions
- Multi-use edges press fabric and tape, and smooth material, reducing extra tools
- Built-in mil gauge verifies material thickness for consistent performance

4. TECHNICAL DATA

Specifications subject to change without notification. Results shown are typical but reflect test procedures used. Actual field performance will depend on installation methods and site conditions.

5. INSTALLATION

Use the HYDRO BAN Corner Tool to apply liquid waterproofing or embed waterproofing fabric membranes to suitable substrates. Load the HYDRO BAN Corner Tool with LATICRETE liquid waterproofing and apply consistent pressure while moving along the corner. Use the back of the tool to ensure full coverage and proper membrane embedment. Maintain continuous contact with the substrate to achieve a uniform film thickness and eliminate voids or air pockets. The integrated feeler depth gauge located at the end of the handle may be used to verify that the applied liquid waterproofing meets the required wet film thickness specified in the product Data Sheet.

6. AVAILABILITY AND COST

Availability

LATICRETE materials are available worldwide.

For Distributor Information, Call:

Toll Free: 1.800.243.4788

Telephone: +1.203.393.0010

For on-line distributor information, visit LATICRETE at laticrete.com

Cost

Contact a LATICRETE Distributor in your area.

7. WARRANTY

See 10. FILING SYSTEM:

8. MAINTENANCE

After use, clean the HYDRO BAN Corner Tool with warm water to remove access material before storage.
