

New Product Launch Overview

2026 Launch Window 1

Smarter solutions for faster installs, flawless finishes, and lasting protection.

From redesigned drains and waterproofing tools to upgraded underlayments and surface care designed without PFAS, our latest innovations deliver precision, durability, and design flexibility — built for real-world performance on every project.

HYDRO BAN® Bonding Flange & Point Drain Grates

Engineered to install better. Designed to finish strong.

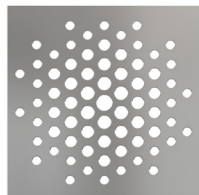

The new-and-improved HYDRO BAN® Bonding Flange Drains and Point Drain Grates deliver complete, user-friendly drainage solutions engineered for faster installation, alignment precision, and design-forward results.

Bonding flange drains are available in PVC and ABS, offered either with a tile-in grate for a discreet, integrated look or in a configuration compatible with 4x4" point drain grates. Sold separately, point drain grates are offered in six styles and nine finishes, allowing coordination with fixtures and select LATICRETE® Profiles.

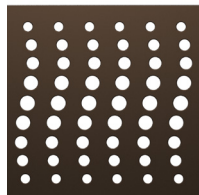

Installer-optimized features for bonding flange drains include adjustable height screws to streamline installation and texture-molded surfaces to ensure a tight bond. New one-piece point drain grates enable changes to grate styles and finishes without reworking the assembly. Designed to integrate seamlessly, the new drains are fully compatible with HYDRO BAN Shower Systems.

HYDRO BAN Corner Tool

Perfect corners. Every time.

The new HYDRO BAN Corner Tool helps installers detail waterproofing at inside corners, coves, and transitions with speed and confidence. Designed for smooth, controlled application in tight areas, it improves accuracy at changes in plane while supporting consistent, high-performance waterproofing.

Compatible with the HYDRO BAN family, including HYDRO BAN, HYDRO BAN XP, HYDRO BAN 1, HYDRO BAN Peel & Stick Sheet Membrane Accessories, and more.

170 Sound & Crack Isolation Mat

Proven sound and crack isolation — now precision cut sheets for better installs.

The 170 Sound & Crack Isolation Mat sets a new standard for acoustic performance and installation efficiency. Engineered to reduce noise transfer and protect tile and stone finishes from substrate movement, the updated system introduces precision-cut sheet formats alongside optimized roll sizes—giving installers and specifiers greater flexibility without sacrificing performance.

The new sheet format features automated, precision-cut beveled edges that create tighter seams, cleaner transitions, and a smoother finished surface. Sheets lay flat immediately with no roll memory or acclimation time, reducing waste and speeding installation. Additionally, lightweight, palletized packaging improves ergonomics and makes single-person handling of sheets easier on the jobsite.

With multiple thicknesses to meet a wide range of acoustic requirements, up to 94% post-consumer recycled content, and independent testing that exceeds code requirements, the 170 Sound & Crack Isolation Mat delivers trusted performance for residential, and commercial floor assemblies—backed by a 25-year LATICRETE system warranty.

STONETECH® Sealers & Cleaners — Designed Without PFAS

Same trusted protection. Without compromise.

STONETECH sealers and cleaners are formulated using water-based technologies designed without intentionally added PFAS, including PFOA and PFOS, while maintaining the same trusted performance associated with the STONETECH brand. These products have been upgraded to meet evolving regulatory expectations without compromising durability, usability, or application quality. The low-VOC, water-based formulas are easy to apply, suitable for indoor use, and free from restrictions commonly associated with solvent-based products. Select STONETECH cleaners and sealers are formulated with antimicrobial technology to help resist the growth of mold and mildew on treated surfaces.

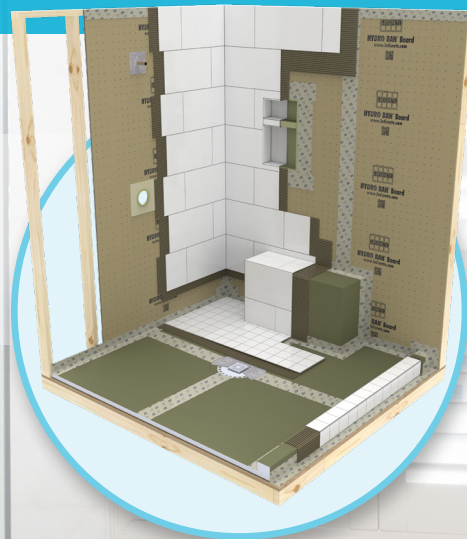

The designed without PFAS STONETECH lineup includes: BulletProof® Sealer; Revitalizer® Cleaner & Protector; Enhancer Pro™ Sealer; Heavy Duty Sealer; High Gloss Finish & Sealer, and Matte Finish & Sealer.

REMINDER

In Stock & Ready to Ship

Modular, pre-sloped shower pans designed for flexible layouts and efficient installation, along with peel-and-stick waterproofing accessories that eliminate extra steps and help installers work faster with confidence.

**HYDRO BAN® Modular
Pre-Sloped Shower Pan
With Compatible Flat-Edge Curb**

**HYDRO BAN Peel & Stick
Sheet Membrane Accessories**
