Easy to Use.

For the Builders of a Better World®

Why SPECTRALOCK® Grout?

Epoxy Performance. Easy to Use.

Meet the SPECTRALOCK Grout family, offering solutions for projects that demand superior strength, stain resistance, and long-lasting beauty – where cement grouts aren't enough.

Get the benefits professionals expect from epoxy, without unnecessary complexity. From ready-to-use convenience to industrial-grade chemical resistance, there's a SPECTRALOCK solution for every environment.

- Epoxy strength for superior bond and long-term durability
- Exceptional stain and chemical resistance stands up to messes and harsh cleaners
- Consistent color and finish with no shading, blotching, or efflorescence
- Low absorption and antimicrobial product protection to fight the growth of stain-causing mold and mildew

SPECTRALOCK®
DAZZLE™

**Decorative metallic and glow additives
used with SPECTRALOCK Grouts**

All SPECTRALOCK products meet or exceed industry performance standards (ANSI A118.3).

SPECTRALOCK® 1

Available in 1 gallon

A professional-grade, pre-mixed grout that offers the superior strength and performance of an epoxy grout without the hassle of mixing.

- Exceeds ANSI A118.3[^]
- Non-sag formula for walls and floors
- No mixing, no waste, no timing issues
- Delivers the durability and stain resistance expected from epoxy
- Designed for fast, consistent results on residential and commercial projects
- Available in 40 standard LATICRETE grout colors plus a translucent option

Uses

Ceramic tile, glass tile and stone

Residential and commercial

Interior and exterior

Floors and walls

Swimming pools, fountains and other wet area applications

[^]Meets or exceeds ANSI A118.3 specific test designation 5.6.
