

Discover the **HYDRO BAN® Family**

**One Family,
One Standard.**

Liquid. Preformed.
Sheet Membrane.

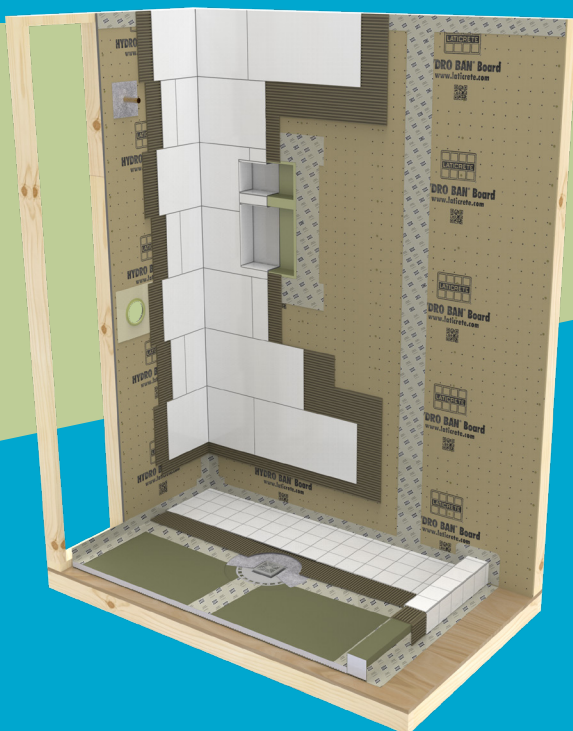

For the Builders of a Better World®

Why HYDRO BAN®?

The HYDRO BAN® system includes a complete range of waterproofing technologies to meet every project's timeline, application, and durability need—from pre-sloped, pre-waterproofed, ready-to-tile backer boards and shower pans to fast-curing liquid membranes and sheet membrane and accessories.

- Ideal for tiled showers, wet areas, steam rooms[^], and submerged applications
- All components designed for compatibility and system integrity
- Delivers speed, reliability, and flexibility for every waterproofing challenge

Complete HYDRO BAN® Shower System

All products meet or exceed industry performance standards (ANSI A118.10).

Check data sheets for IAPMO and A118.12 compliance.

[^]Check product data sheets for steam room compatibility.

Liquid Membranes

HYDRO BAN® – The Original Innovation

Flexible, liquid-applied waterproofing and crack isolation membrane.

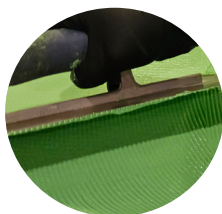

- Rapid drying, flood test in 2 hours*
- No fabric required in coves or corners
- Roller, trowel, or spray applied

HYDRO BAN XP – Extreme Performance

Same quality expected of HYDRO BAN, but with extreme performance (XP).

- For demanding applications and environments
- ASTM E96 rated for steam showers and steam rooms**
- Curing temperature range $\geq 35^{\circ}\text{F}$ or higher**

HYDRO BAN 1 – One Coat

Single-coat, trowel-applied waterproofing and crack isolation membrane.

- Self-gauging application, coverage in one coat
- Ideal for fast-track commercial timelines
- Same trusted performance as proven HYDRO BAN XP**

**HYDRO BAN 1 is ASTM E96 rated for steam showers and steam rooms. Curing temperature range $\geq 35^{\circ}\text{F}$ or higher.

Sheet Membranes, Accessories & Sealants

Interior Use Only*

HYDRO BAN® Sheet Membrane

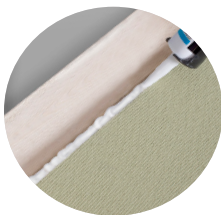

A thin, flexible sheet membrane that installs cleanly.

- Tile immediately after installation
- Excellent for renovations and prefabrication
- Available with various accessories for full system installation (sealing tape, corners, pipe and drain collars, and mixing valve seals)

Now Available: Peel & Stick Sheet Membrane Accessories

**Peel-and-stick sealing tape,
corners, pipe collars and nail circles**

- Easy to install
- Saves time with a reduced cure time

HYDRO BAN Adhesive & Sealant

Hybrid polyurethane formulation.

- Bonds and waterproofs penetrations, joints, seams and transitions
- Long-lasting, flexible seal

*Refer to product data sheets for details on use and applications. Data sheets are subject to change without notice. For latest revision, visit latiacrete.com.

Pre-Formed & Ready-to-Tile Substrates

HYDRO BAN® Board

A lightweight, high-strength backer board with a waterproof facer and extruded polystyrene core.

- Cuts easily with a utility knife, no dust or mess
- Perfect for walls, ceilings, tub surrounds, custom-built benches and more

HYDRO BAN Pre-Sloped Shower Pans, Curbs, Ramps & Extensions

Lightweight, pre-waterproofed, durable foam-core shower pans, pre-sloped to direct water to drain.

- Meets ADA requirements
- Multiple sizes and configurations available, including single piece and modular pans, ramps, and extensions
- Linear, center and off center drain options

HYDRO BAN Pre-Formed Niches, Seats, & Benches

Lightweight, pre-waterproofed, durable foam-core construction.

- Allows for near custom shower designs with seating and streamlined storage

Custom shower pans & accessories

Access a wide range of customizable sizes, shapes and drain configurations

Precision-fit components for any project needs

With or without pre-applied waterproofing, your choice

3-5 DAYS
