#### 3. PRODUCT DESCRIPTION

Waterproofing/Anti-Fracture Fabric is a thin, flexible non-woven fabric designed for use specifically with latex based membranes. The Waterproofing/ Anti-Fracture Fabric adds strength to load-bearing waterproofing membranes specifically for the special requirements of ceramic tile, stone and brick installations. A self-curing liquid rubber polymer and the Waterproofing/Anti-Fracture Fabric are quickly applied to form a flexible, seamless membrane that bonds to a wide variety of substrates.

#### Uses

See data sheet for the specific membrane being used for suitable uses

#### **Advantages**

- Required for use with 9235 Waterproofing Membrane, full fabric applications and Blue 92 Anti-Fracture Membrane
- Required for use with HYDRO BARRIER™ in coves, corner and changes of plain for waterproofing applications
- Can be used with HYDRO BAN®, Air & Water Barrier, WATERTIGHT™ Floor N' Wall Waterproofing & Crack Isolation or 9237 Waterproofing Membrane for added strength
- Interior and exterior use
- Vertical and horizontal surfaces (including ceilings)
- Provides added strength to installation areas with added stress

#### **Suitable Substrates**

See data sheet for the specific membrane being used for suitable substrates.

#### **Packaging**

300 ft<sup>2</sup> (27.8 m<sup>2</sup>) roll fabric 38" (965 mm wide) 75 ft (23 m) long roll fabric 6" (150 mm wide)

#### **Approximate Coverage**

See data sheets for the specific latex based Membrane.

#### Shelf I ife

Factory sealed containers of this product are guaranteed to be of first quality for two (2) years if stored at temperatures >32°F (0°C) and 110°F (43°C).

#### Limitations

- For installation over Glass Mat Gypsum Exterior Sheathing Panels use Air & Water Barrier only. Refer to DS661.0 & 661.5 for specific installation instructions.
- Do not use with a membrane as a primary roofing membrane over occupied space
- Do not use with a membrane over expansion joints, structural cracks or cracks with vertical differential movement
- Do not use with a waterproofing membrane over cracks >1/8" (3 mm) in width
- Do not use with a waterproofing membrane as a vapor barrier (especially in steam rooms)
- Not for use with a membrane directly over OSB, particle board, luan, Masonite<sup>®</sup>, or hardwood floors unless specifically stated as a suitable application in the membrane data sheet.
- Do not expose unprotected membranes to sun or weather for >30 days
- Do not expose membranes to negative hydrostatic pressure, excessive vapor transmission, rubber solvents or ketones
- membranes must be covered with ceramic tile, stone, brick, concrete, screeds, terrazzo or other traffic-bearing course, unless otherwise noted in specific membrane data sheet. Use protection board for temporary cover.
- Obtain approval by local building code authority before using waterproofing membrane in shower pan applications.
- Do not install a membrane directly over single layer wood floors, plywood tubs/showers/ fountains or similar constructs

#### **Cautions**

Consult specific membrane MSDS for more safety information.

Protect from traffic or water until fully cured

#### 4. TECHNICAL DATA

#### **Applicable Standards**

See the individual membrane data sheets for specific technical data.

#### **Approvals**

Go to **www.laticrete.com** or see the individual data sheets for specific product approvals.

#### 5. INSTALLATION

Refer to data sheet of specific latex based membrane for installations instructions.

# 6. AVAILABILITY AND COST

#### **Availability**

LATICRETE® and LATAPOXY materials are available worldwide.

## For Distributor Information, Call:

Toll Free: 1.800.243.4788 Telephone: +1.203.393.0010

For on-line Distributor information, visit LATICRETE at

www.laticrete.com.

#### Cost

Contact a LATICRETE Distributor in your area.

#### 7. WARRANTY

See 10. FILING SYSTEM

DS 230.13: LATICRETE Product Warranty (United States

and Canada)

See individual waterproofing membrane data sheets for specific warranty information.

#### 8. MAINTENANCE

LATICRETE and LATAPOXY grouts require routine cleaning with a neutral pH soap and water. All other LATICRETE and LATAPOXY materials require no maintenance but installation performance and durability may depend on properly maintaining products supplied by other manufacturers.

## 9. TECHNICAL SERVICES

#### **Technical Assistance**

Information is available by calling the LATICRETE Technical Service Hotline:

Toll Free: 1.800.243.4788, ext. 235 Telephone: +1.203.393.0010, ext. 235

Fax: +1.203.393.1948

## **Technical and Safety Literature**
