Uplift Plates and Plugs

NXT Pedestal Multiplate
PD1-0013-02

Supports a wide range of applications including low-clearance installations, perimeter conditions, and complex layouts.

NXT Pedestal Multiplate Facer
PD1-0015-02

Provides a clean, finished edge by concealing exposed sides on live edges and stairs.

NXT Pedestal Concealed Uplift Plate
PD1-0007-02

Securely anchors tiles to pedestals for enhanced wind-uplift resistance and platform stability.

NXT Pedestal Stainless Steel Uplift Plug
PD1-0010-02

Secure tiles in place for enhanced stability and wind-uplift resistance.

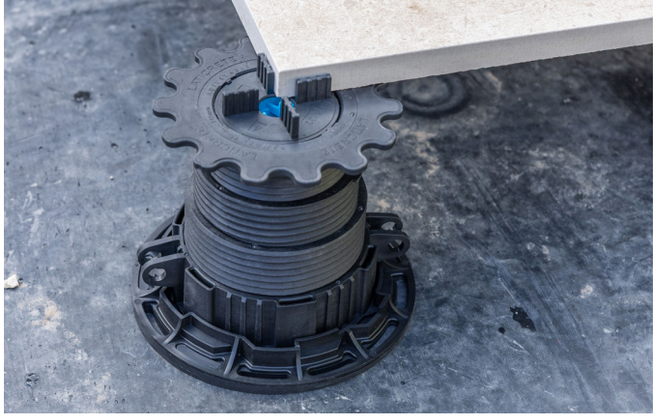
Tools

NXT Pedestal Maintenance Key
PD1-0012-03

Enables quick pedestal height adjustments and maintenance post-installation.

NXT Pedestal High Speed Chuck
PD1-0011-03

For use with an electric drill or screwdriver, allowing for quick and effortless pedestal height adjustments.



Features and Benefits

- **Simple system with three core products:** Interchangeable Max, Mini and Extender components can reach heights of up to 41-1/2" (1045 cm)
- **Adjustable height:** Achieve precise leveling and account for variations in the substrate with a simple threaded height adjustment
- **High load capacity:** Stands up to the most demanding installations – handles snow loads, furniture, garden beds, and more
- **Tiltable head:** Accommodate slopes of up to 5° with no need for additional accessories
- **Ease of installation:** Requires minimal tools to install and maintain, and allows easy access to any infrastructure below like HVAC lines and drains
- **Versatile and suitable for a range of finish materials:** Works with pavers, tiles, decking, and more
- **5-year product limited warranty:** Peace of mind for long lasting installations

5 YEAR WARRANTY*

Uses:

- Rooftop decking
- Terraces and patios
- Green roof systems
- Plazas and public spaces
- Pool decking
- Balconies and walkways
- Temporary or modular flooring

*See Data Sheet DS-230.05P for complete warranty information.

For the Builders of a Better World™

Transform Your Outdoor Spaces

Our premium pedestal solution gives you a flexible, easy-to-install system for raised decking, pavers, and tiles. User-friendly and adaptable to any surface, slope, or project size, you can now achieve precise leveling, superior stability, and outstanding drainage on rooftops, terraces, plazas, and more.

NXT® Pedestal Max and NXT Pedestal Mini

- Triple screw adjustment enables superior fine-tuning height adjustment
- Built-in 5/32" (4 mm) spacer tabs create evenly spaced joints
- Sound dampening head pads reduce the transmission of sound to lower levels
- Superior durability, load rated to over 2,000 lbs.

◀ NXT® Pedestal Max
PD1-0002-01
Meets most common height requirements, with an adjustable range of 1-3/4" (45 mm) to 5-3/4" (145 mm)

NXT Pedestal Mini ▶
PD1-0001-01
Meets lower height requirements, with an adjustable range of 3/4" (20 mm) to 1-3/4" (45 mm)

NXT Pedestal Extender

Add 4" (100 mm) of height to the NXT Pedestal Max, offering greater flexibility and customization for pedestal configurations and meeting a variety of installation challenges.

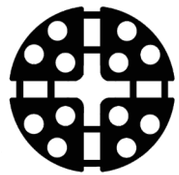
- "Click and connect" combines with Max for a full range of install heights
- Add up to 9 Extenders to create elevations as high as 41.5" (1045 cm)

PD1-0003-01

Accessories

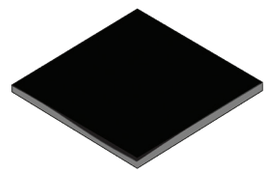
NXT® Pedestal Slope Corrector
PD1-0005-02
Each adds up to 3-degrees of stackable slope correction for greater installation flexibility.

NXT Pedestal Base Pad
PD1-0009-02
Protects waterproof membranes while reducing noise and vibration.

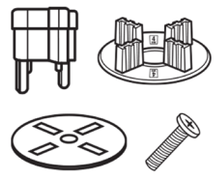


NXT Pedestal Rubber Shim
PD1-0004-02
Helps level uneven substrates while reducing noise and impact.

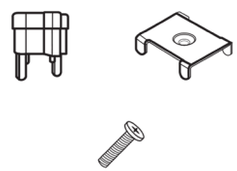
NXT Pedestal Timber Joist Bracket
PD1-0006-02
Provides secure, precise support for timber joists in pedestal installations.



NXT Pedestal Support Tray
PD1-0014-02
Adds a layer of safety in the event a tile or paver breaks.



NXT Pedestal Support Tray Fastening Kit
PD1-0020-02
Secures support trays to the NXT Pedestal Max, delivering improved system stability and wind uplift resistance.



◀ NXT Pedestal FRP Panel Fastening Kit
PD1-0019-02
Fastening kit for securing FRP panels to NXT Max Pedestals, boosting strength and stability for elevated surfaces.
