MISSION

OUR PURPOSE IS TO IMPROVE THE BUILT WORLD AND THE LIVES OF THOSE WHO BUILD IT.

Over 60 years of global experience.

Green flooring and facade materials.

Family-owned business.

LATICRETE International, Inc., Corporate Headquarters

LATICRETE® is committed to innovating materials and services for safe, simple, and durable construction.

Using sustainable and safe products is especially important to create and maintain a safe, healthy indoor environment.

The below icons are used to indicate key standards or certifications to help guide product selection.

ISO 9001:2015

International Organization for Standardization. Quality management system for the design, production and technical support of our materials.

Health, safety, and environmental protection standards for products within the European Economic Area (EEA).

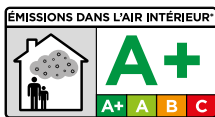

American National Standards Institute.

International Association of Plumbing and Mechanical Officials.

Low chemical emissions. EMICODE® classification system allows you to compare and evaluate the emission characteristics of flooring installation and construction products.

Low chemical emissions. French label "Émissions dans l'air intérieur" evaluates the emissions of 10 substances and the "total volatile organic compounds" parameter (TVOC) have to be measured and classified into four categories from A+ to C.

Low chemical emissions. Greenguard certification can contribute towards USGBC LEED credits.

Built-in antimicrobial technology that inhibits the growth of stain-causing bacteria, mould, and mildew.

Inhibits the growth of stain-causing bacteria, mould, and mildew.

PERMACOLOR® SELECT

Fast-setting cementitious grout for joints from 1,5 mm up to 12 mm

PRODUCT DESCRIPTION

PERMACOLOR SELECT is an advanced high-performance cement grout that offers the industry's first dispensable dry pigment solution. It is designed for virtually all types of residential and commercial installations and offers optimum performance on the most demanding exterior or interior applications. Easy to mix, grout and clean, PERMACOLOR SELECT is fast setting and suitable for joints on floors, walls, or in pools.

TECHNICAL DATA

MIXING RATIO

(1) COLOR KIT : 1.2 lt water : 5.5 kg bag

POT LIFE

50 - 55 minutes

TIME TO SET

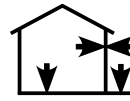

3 hours

SHELF LIFE

24 months

FEATURES & BENEFITS

- Good for submerged use
- Low VOC — safe and easy to use
- Does not require sealing — equipped with STONETECH® sealer and anti-microbial protection
- Fibre reinforced — crack and shrink resistant
- Fast setting — ready for foot traffic in as little as 3 hours
- Vibrant consistent colour with COLOR KIT — available in 52 standard colours

EN13888
CG2 - WA

MICROBAN®

PERMACOLOR® SELECT FINE

Fast-setting fine cementitious grout for joints up to 6 mm

PRODUCT DESCRIPTION

PERMACOLOR SELECT FINE is an ultra premium, cement grout designed for highly-delicate surfaces. It is formulated from a blend of high strength Portland cement and polymers, and just needs to be mixed with water and LATICRETE COLOR KITS — the industry's first dispersible dry pigment solution for more vibrant and consistent colour.

TECHNICAL DATA

MIXING RATIO

(1) COLOR KIT : ~1 lt of water : 3.6 kg bag

POT LIFE

50 - 55 minutes

TIME TO SET

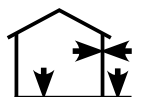

2 hours

SHELF LIFE

24 months

FEATURES & BENEFITS

- Good for submerged use
- Low VOC — safe and easy to use
- Ideal for highly delicate surfaces such as marble and soft glass
- Does not require sealing — equipped with STONETECH® sealer and anti-microbial protection
- Non-shrinking
- Rapid setting — sets in about 2 hours
- Vibrant consistent colour with COLOR KIT — available in 52 standard colours

Grout and Sealant Colour Guidelines: Grout and sealant colour samples are guides only. LATICRETE does not warrant colour matching to this colour chart or to any colour guide produced. Actual shade and texture will depend on job site conditions, lighting, installation techniques and types/colour of tile or stone used, and may vary from this grout colour chart, grout colour channel kits and grout colour swatch on product packaging. Verify actual appearance and compatibility with a test area before installing. Blend grouts with different control numbers. No claims for colour shade variations will be honoured.

PERMACOLOR® SELECT: Easy to Mix, Easy to Use

Simply select your PERMACOLOR SELECT® COLOR KIT from 52 stocked colours.

Mix it with PERMACOLOR SELECT Base or PERMACOLOR SELECT FINE Base.

Then grout.

(1) Part A : (1) Part B : (1) Part G

WORKING TIME

80 minutes

TIME TO LIGHT TRAFFIC

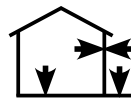

8 hours

SHELF LIFE

Part A & B liquids: 24 months
Part G glass beads: no limit

FEATURES & BENEFITS

- Translucent — allows light to pass through
- Good for submerged use — for swimming pools, fountains, and other wet areas
- Suitable for many types of tile finishes
- Tough, durable, and crack resistant
- 80 minutes working time at 21 °C

LATASIL™

High-performance universal silicone sealant with fungicide

PRODUCT DESCRIPTION

LATASIL sealant is a high performance, one component, neutral cure, 100% silicone sealant designed for tile and stone applications.

FEATURES & BENEFITS

- Versatile, all-in-one sealant – good for natural stone, sanitary spaces, swimming pools*, façades, cold storage units, cleanrooms, and more
- Superior adhesion and compatibility, especially to metals and glass
- Antimicrobial & fungicidal – inhibits growth of bacteria, mould and mildew on sealant joint
- Very low VOC emissions – better indoor air quality
- Neutral, low-odour, non-shrink and acid-free curing, CE-certified silicone system
- Easy to smooth and tool
- Excellent weatherability, resistance to ageing, UV radiation and chemicals
- Excellent movement capacity – 25% movement capability
- Can be used where ceramic tile abuts glass and window framing
- Matches all 53 LATICRETE colours offered in Europe

*Suitable for use in pools in combination with 2-part primer
